1986 Article/Author Index

Title/Subject Index

Feature titles are listed in alphabetical order. These are followed by an alphabetical listing of columns with the respective articles in each also listed alphabetically. Key words within the titles appear in boldface type for easy location.

***Allergies** to Laboratory Animals: An Occupational Disease.* Olfert, E.D. July/August, 15(5):24–31.

*Collecting Feral Cynomolgus **Macaques.*** Houghton, P. July/August, 15(5):19–22.

***Euthanasia:** A Comparison of the 1978 and 1986 AVMA Panel Reports.* Hughes, H.C. and Warnick, C.L. November/December, 15(8):30–32.

*The Impact of the **GLPs** on Lab Animal Research.* Soave, O. and Tufts, N.R. March, 15(2):39–45.

***Goldfish** in Research: Use and Maintenance.* Anders, J.J. and Ostrow, M.E. July/August, 15(5):33–41.

*The Japanese **Quail** as a Laboratory Animal.* Porter, W. and Terrill, J. January/February, 15(1):27–35.

***Listen** to the Animals.* Sojka, N.J. September, 15(6):30–31.

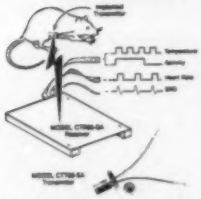
*The Laboratory **Hound.*** Johnson, D.K., Bonner, H.A., and Knutsen, C.A. September, 15(6):33–36.

*The Laboratory **Hound** in the Development of Drug Delivery Systems.* Knutsen, C.A. September, 15(6):41–46.

*The Laboratory **Hound** as a Model for the Study of Cardiac Arrhythmias.* Frame V.A., Colatsky, T.J., and Johnson, D.K. September, 15(6):47–49.

***Miniature Swine** as Research Models.*

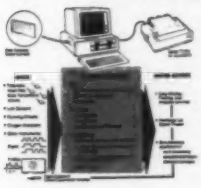
PhysioTel™ THE SMALLEST IMPLANTABLE WIRELESS EKG TRANSMITTER



- Eliminates restrictive tethers and noisy swivels.
- Simultaneously telemeters EKG, heart rate, temperature, and activity.
- Implantable in rats, rabbits, monkeys, dogs, etc.
- Designed for laboratory use.
- Additional features: 6 month nominal service life (Model CTT85-SA), extended shelf life, reuseable.

★ Telemetry units are also available for use with electroenzymatic sensors. ★

DATAQUEST™ DATA ACQUISITION & ON-LINE ANALYSIS SYSTEM



Dataquest features real-time plotting and analysis. Standard analysis routines include: Fourier transform, ANOVA, T-test, Actogram, Histogram, Cosinor, and more.

Dataquest III also allows most MS-DOS programs (i.e. word processing, spread sheet, etc.) to run on the computer simultaneously with the collection of data, eliminating the need to dedicate a computer to data collection.

RABBITS
(DMF/New Zealand White)

&

GUINEA PIGS
(DMF/Hartley & English Short Hair)

NOW commercially available, time-mated (dated-pregnant) guinea pigs . . . for use in your research on abortifacients or in reproductive studies, in pregnancy research, in teratology, pre-natal biochemistry, embryology and other fields.

We're also proud of our well-stocked inventory of high quality rabbits and guinea pigs to meet all of your exacting requirements.

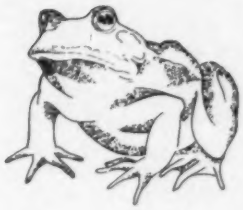
The Difference is as Dramatic as Night and Day

ALBINO and...

PIGMENTED Bullfrogs



Raised Under Totally Controlled Conditions

Finally, a dependable source for Rana Catesbeina, with availability all year long.

Never before has the Albino Frog been offered as a BIO-Model. Ideal for skin, muscle and blood studies. Diagnostic tests show this frog to be far superior to their wild counterparts.

At PARCO, we understand fully the needs of the research community. Our BIO Division has been a source for Northern Rana Pipiens since 1970.

Parco Frogs are guaranteed to arrive in excellent health within 24 hours of shipping.

A comprehensive brochure including a copy of an independently conducted Health Status Report is available upon request.
